

**NCART works every day, every month, every year to secure the future of Complex Rehab Technology (CRT).**

NCART led legislative action that delayed CMS from implementing Competitive Bid pricing to components of CRT power wheelchairs.

**2017**

NCART led legislative action that provided an 18-month delay in Competitive Bid pricing being implemented for components of CRT manual wheelchairs.

**2021**

NCART collaborated with other stakeholders and with Congress to formally request Medicare coverage of Power Seat Elevation and Standing systems

**2015-2016**

NCART led advocacy action that resulted in CMS PERMANENTLY excluding components of CRT power wheelchairs from Competitive Bid pricing.

**2019**

NCART led industry and Congressional efforts resulting in CMS PERMANENTLY excluding components of CRT manual wheelchairs from Competitive Bid pricing.

**2020-2023**

NCART played a leading role in successfully establishing Medicare coverage of Power Seat Elevation systems

### **What's Next?**

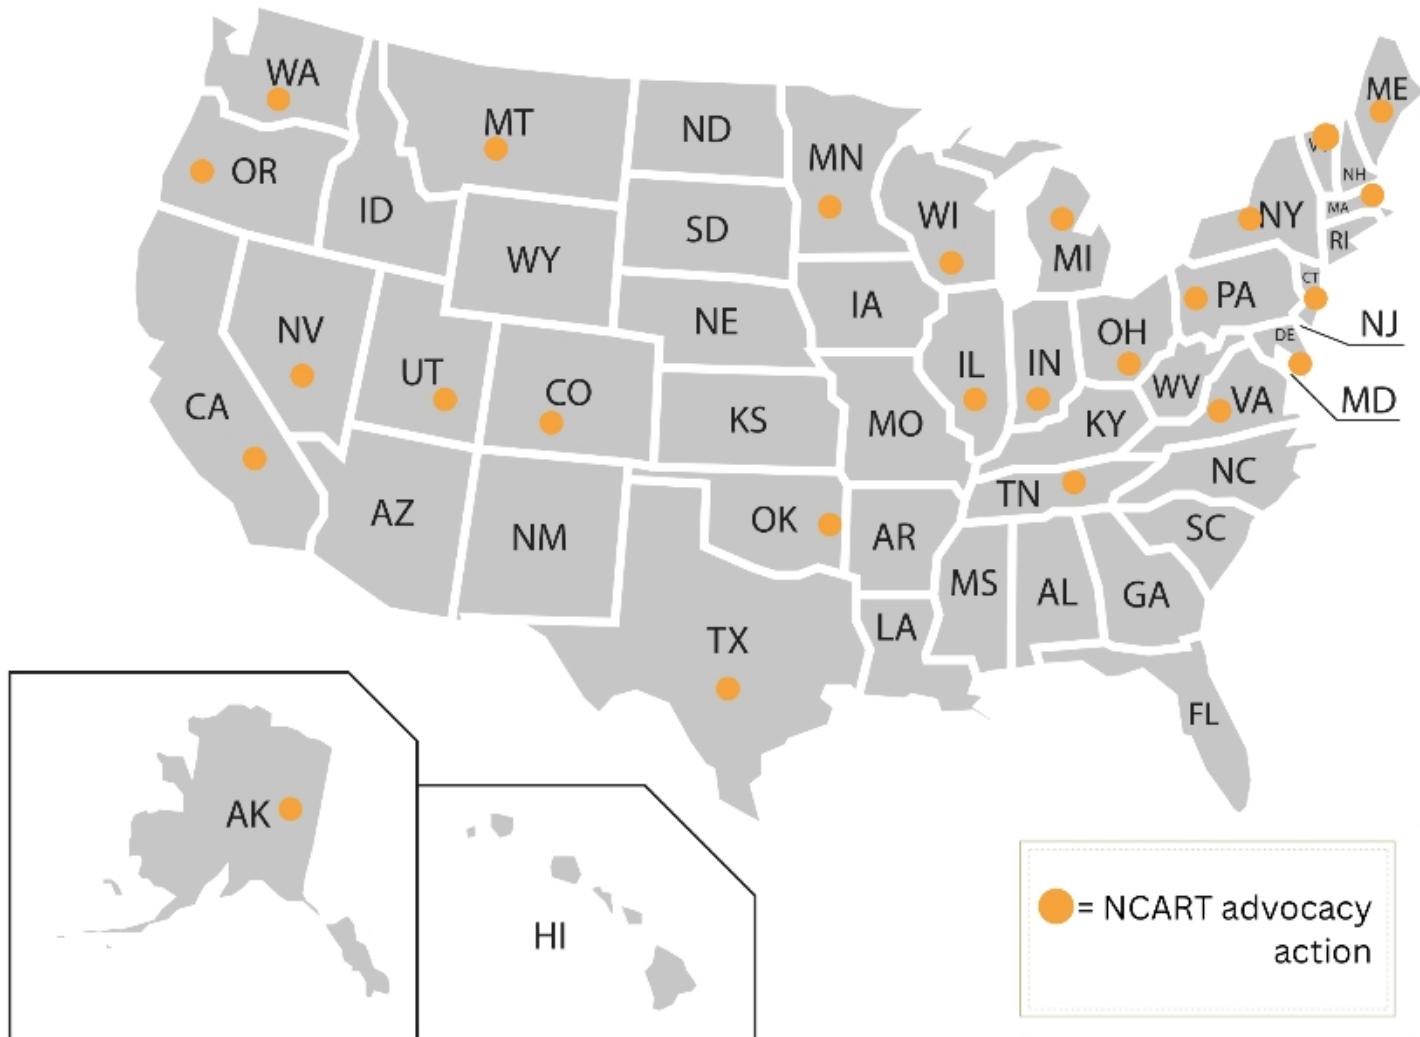

- **Establishing** Medicare coverage of Power Standing systems; including appropriate coding, coverage, and payment
- **Leading** efforts to improve CRT reimbursement on the federal and state level to address rising costs of doing business
- **Driving** CRT Repair reform to reduce administrative burdens and improve reimbursement that supports the infrastructure required to provide these critical services

NCART's work has benefitted the CRT industry up to \$113,000 per \$1 Million in sales annually. Our experienced leadership will continue to secure the growth and longevity of the CRT industry. Join today!

## Getting Complex Rehab Technology (CRT) on the Map

In 2024, more fights will be taking place at the state level and NCART is ready to support our members so they can thrive and continue to provide CRT to individuals with disabilities. We actively monitor all states to quickly identify bills, regulations, policies, and reimbursement changes that could have a detrimental effect on our members and the communities they serve.

NCART has over 20 years of experience partnering with providers, manufacturers, state associations, clinicians, consumer organizations, and others to strategize and take needed action that protects access.
